

The screenshot shows a desktop application window titled "Inventory Manager". The window has a standard Windows-style title bar with minimize, maximize, and close buttons. Below the title bar is a menu bar with "File" and "Edit" menus. The main content area is divided into a header section and a table section. The header section contains the text "Inventory Manager" in a bold font. The table section contains a table with 11 columns: Name, Size, Type, Length, Length Unit, Model, Brand, Storage Count, Use Count, and Total Count. The table is currently empty, and the area below the header is a large gray rectangle. At the bottom of the window, there are three buttons: "Add", "Edit", and "Delete".
